Preface

Mageants_Contact is a perfect extension for the store owners who wants to store there customers contact messages and improve there support.

- Storing customers messages is help to improve customer support.
- Magento's core contact functionality is powerful in itself , but there have always room for improvements.The most important purpos of creating Mageants contact Module is storing customers data who contacted us.
- User Friendly and flexible configuration.
- Compatible with Most of the Browser.
- Enable/Disable Module is easy.
- Delete/View Functionality available on admin side.
- Admin get Email with customer detail and message which is help for support.
- Show store address using Google Map on contact form.

Installation

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory
If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line:
`php bin/magento setup:upgrade`

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Advanced -> Advanced, the module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory
If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management
Edit app/etc/config.php file and add one line code:
`'Mageants_Contact' => 1`

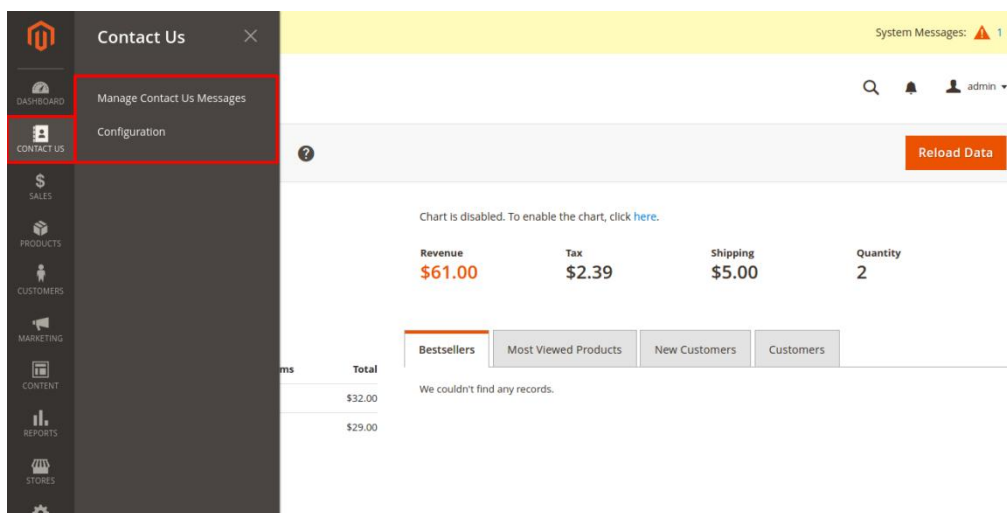

Step 4: Disable the cache under System -> Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Advanced -> Advanced, the module will be displayed in the admin panel.
