Preface

COD based on zip code is a perfect extension for the store owners who wants to check COD available for specific zip code or not in product view page.

- Cash On Delivery payment method Auto Hide based on customer entered shipping address PIN Code/ZIP code.
- Allow store owner to Add/Edit/Update PIN Code/ZIP code, COD available or not & delivery days for Cash On Delivery method..
- Allow store owner to Import/Export ZIP code from back end configuration.
- A Mobile responsive PIN Code/ZIP code availability checker tool on product detail page.
- Cash on delivery checker block will display COD available or not & Delivery Days message for eligible postcode which can be configured for each PIN Code/ZIP code.
- User Friendly and flexible configuration.
- Compatible with Most of the Browser.
- Ability to add any number of PIN Code/ZIP code from admin.
- Easily Enable/Disable form admin.

Installation

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line:
`php bin/magento setup:upgrade`

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Advanced -> Advanced, the module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management Edit `app/etc/config.php` file and add one line code:
`'Mageants_ZipcodeCod' => 1`

Step 4: Disable the cache under System -> Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Advanced -> Advanced, the module will be displayed in the admin panel.
