Preface

Magento 2 Improved Sorting extension provides add custom sorting options to make products easier to find. This extension gives effective options to customers for product sorting – by bestselling, most viewed, rating, and more. Increase the usability of your catalog with user-friendly search options.

- Improved Sorting extension help to Your customers find the best products fast!
- Users sort products by 'Best Sellers', 'Top Rated', 'Most Viewed' etc.
- Change sorting order when you need
- Sort out-of-stock products and items without an image in last

Installation :-

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade and
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Advanced-> Advanced, the module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management Edit app/etc/config.php file and add one line code:

The screenshot displays the 'Configuration' page in the MageAnts admin interface. On the left is a sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, MagePlaza, and Reports. The main content area is titled 'Configuration' and features a 'Save Config' button in the top right. It is divided into two sections: 'Most Viewed' and 'Now In Wishlists'. The 'Most Viewed' section includes three input fields: 'Label [store view]' (with a callout 'Set most viewed sorting label'), 'Most Viewed Period (days) [global]' (with a callout 'Set most viewed period in days'), and 'Custom Most Viewed Attribute [store view]' (with a callout 'Set custom most viewed sorting attribute'). Below these is a note: 'Leave empty for life-time statistics.' The 'Now In Wishlists' section includes two input fields: 'Label [store view]' (with a callout 'Set now in wishlists label') and 'Added To Wishlist Period (days) [global]' (with a callout 'Set now in wishlists period in days'). Below this is another note: 'Leave empty for life-time statistics.'

Go to **Stores** → **Configuration** → **Mageants** → **Improved Sorting**, to Biggest Saving Section.

Label :- You can set now in biggest saving sort order label.

Use Percentage For Biggest Saving Sorting :- If set yes, products price counted by percentage wise.

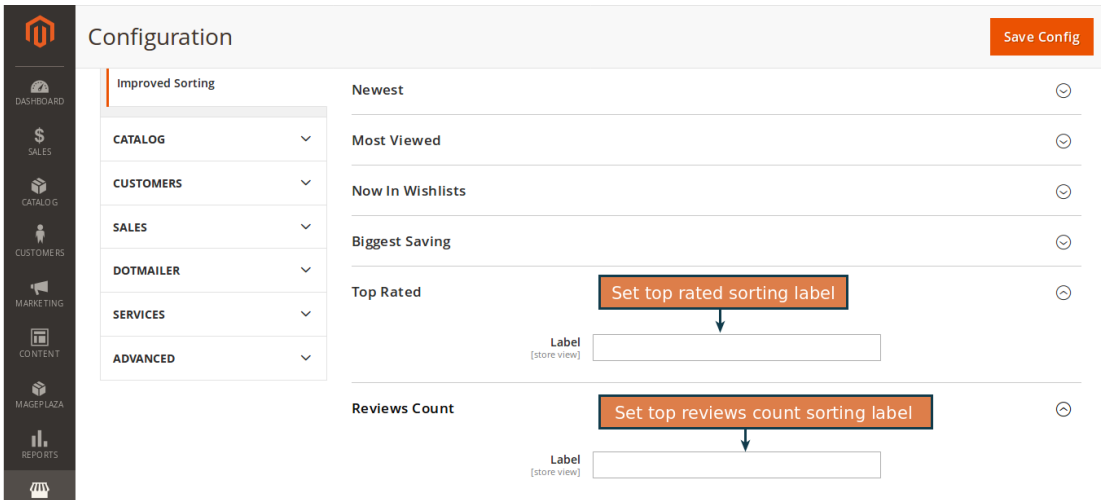

Go to **Stores** → **Configuration** → **Mageants** → **Improved Sorting**, to Top Rated Section.

Label :- You can set now in top rated sort order label.

Go to **Stores** → **Configuration** → **Mageants** → **Improved Sorting**, to Reviews Count Section.

Label :- You can set now in reviews count sort order label.

The screenshot shows the 'Configuration' page in the MageAnts admin panel. On the left is a sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, MagePlaza, and Reports. The main area is titled 'Improved Sorting' and contains a list of sorting options: 'Newest', 'Most Viewed', 'Now In Wishlists', 'Biggest Saving', 'Top Rated', and 'Reviews Count'. Each option has a dropdown arrow. Below 'Top Rated' and 'Reviews Count', there are text boxes for 'Label [store view]' with arrows pointing to them from callout boxes that say 'Set top rated sorting label' and 'Set top reviews count sorting label' respectively. A 'Save Config' button is in the top right corner.
