Preface

The **Mageants Delete Account** is the perfect extension for the customers who wants to delete their account permanently, moreover admin can set the email template as per preference because when user deleting their account at the time particular mail will send to user via particular email template. Although customer will get confirmation link into their registered email account.

Installation

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line: php
bin/magento setup:upgrade

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants → Delete Account , the module will be displayed in the admin panel.

Step 6: At The last the goto the deleted customer account grid the navigation is click on Customers→Customer Account Delete History

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System -> Cache Management. Edit app/etc/config.php file and add one line code:
'Mageants_DeleteAccount' => 1

Step 4: Disable the cache under System -> Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants → Delete Account, the module will be displayed in the admin panel.

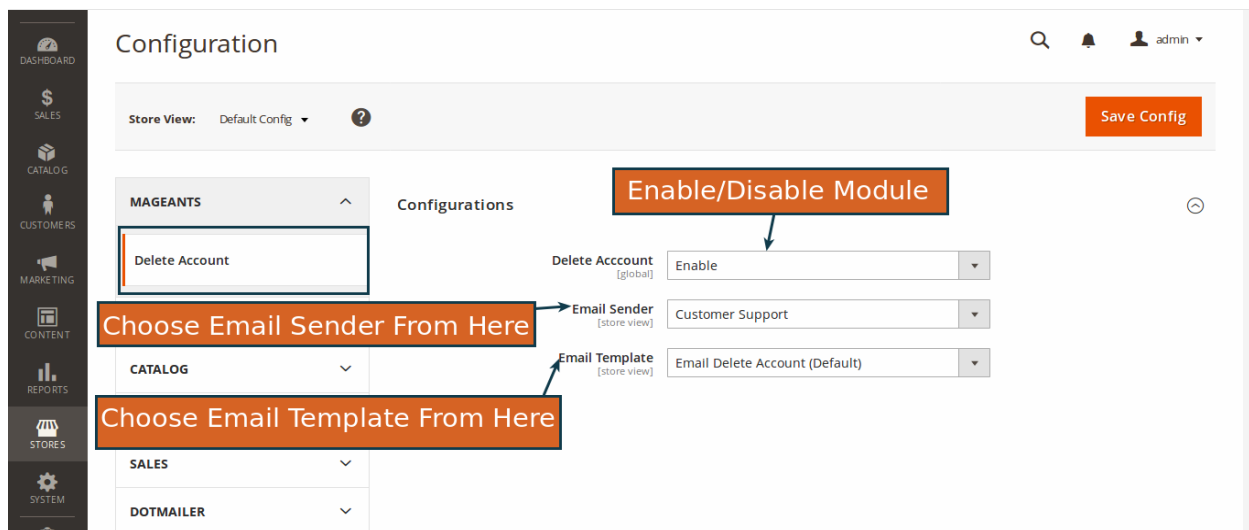

Step 6: At the last go to the deleted customer account grid. The navigation is click on Customers → Customer Account Delete History

CONFIGURATION

After Installation of Extension login to magento admin panel for set configuration of the extension.

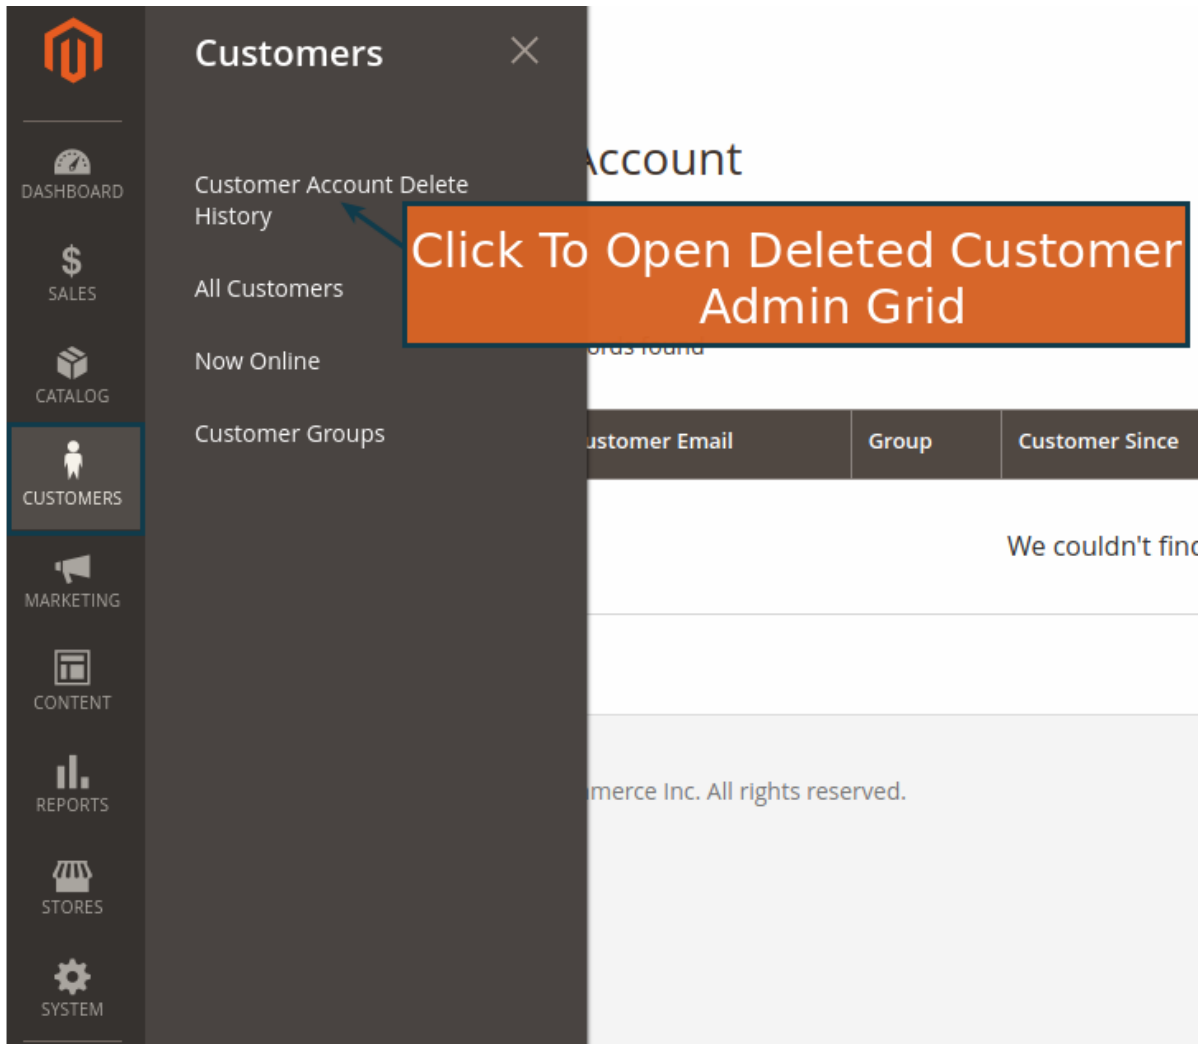

You can find configuration at **Stores -> Configuration -> Mageants -> Delete Account**

The screenshot shows the Magento Admin Configuration page for the 'Delete Account' module. The page is titled 'Configuration' and has a 'Store View' dropdown set to 'Default Config'. A 'Save Config' button is visible in the top right. The 'MAGEANTS' section is expanded, showing the 'Delete Account' configuration. The configuration includes three dropdown menus: 'Delete Account [global]' set to 'Enable', 'Email Sender [store view]' set to 'Customer Support', and 'Email Template [store view]' set to 'Email Delete Account (Default)'. Three orange callout boxes with arrows point to these settings: 'Enable/Disable Module' points to the 'Delete Account' dropdown, 'Choose Email Sender From Here' points to the 'Email Sender' dropdown, and 'Choose Email Template From Here' points to the 'Email Template' dropdown. The left sidebar shows navigation options like DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM.

Admin can change the priority of the settings as per his/her requirement from the back end

In addition to , When customer will deleting their account from the mail at the time the deleted customer record will be saved into the grid , despite of , when customer will again registering their account into the website the previous deleted customer entry will be automatically removed from the grid as below.

- DASHBOARD
- SALES
- CATALOG
- CUSTOMERS
- MARKETING
- CONTENT
- REPORTS
- STORES
- SYSTEM
