## Installation

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually Install extension.

### **Option 1:** Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory  
If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management.

**Step 4:** Enter the following at the command line:

```
php bin/magento setup:upgrade
```

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants -> Responsive Custom Menu , module will be displayed in the admin panel.

### **Option 2:** Magento 2 install extension manually

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory  
If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management  
Edit app/etc/config.php file and add one line code:

```
'Mageants_CustomMenu' => 1
```

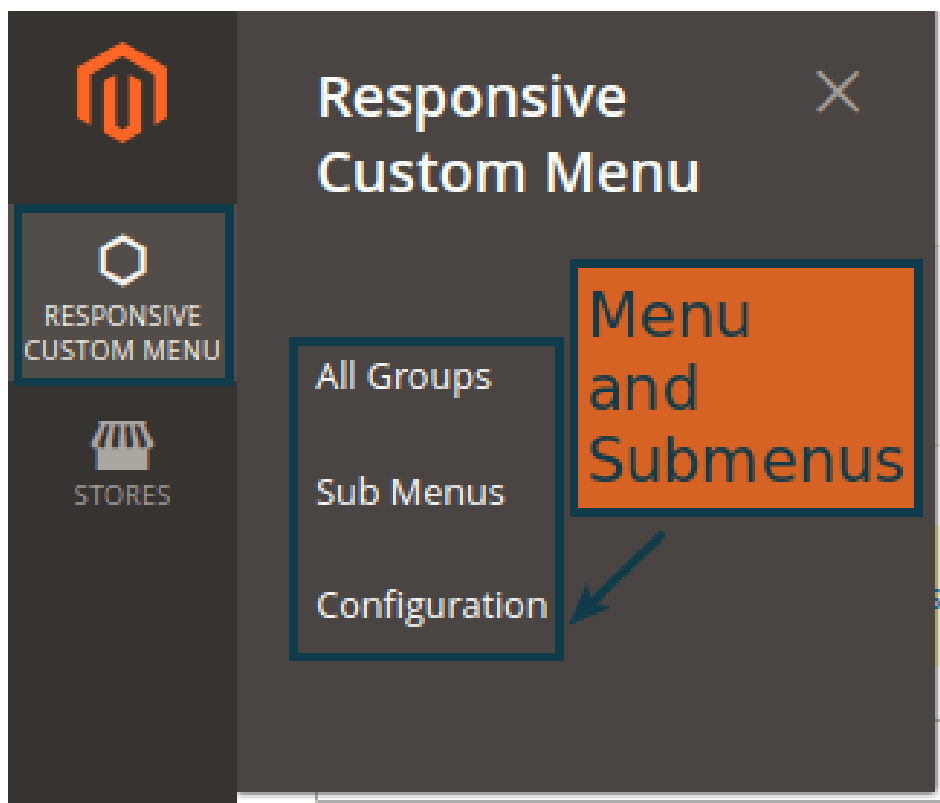

**Step 4:** Disable the cache under System -> Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants -> Responsive Custom Menu , module will be displayed in the admin panel.

## Configuration

After Installation of Extension log in to magento admin panel for set configuration of the extension.

### Extension menu and sub menu:

As per below screen shots you can set all configuration details & all common style settings here.

The screenshot shows the 'Configuration' page for 'Responsive Custom Menu Settings'. The left sidebar contains the 'MAGEANTS' logo and 'STORES' icon. The main content area has a 'Save Config' button in the top right. A yellow notification banner at the top says 'It's time to change your password.' Below it, a red callout box points to the settings, stating: 'Extension customizat on changes like Enable/Disable, title,Category Level, Account section,Logo,Close icon etc...'. The settings include: 'Enable' (Yes), 'Enable Navigation Title' (Yes), 'Navigation Title' (Shop11), 'Remove Default Navigation' (Yes), 'Display Category Level' (5), 'My Account Section' (Left), 'Logo' (Yes), and 'Close Icon' (Yes).

The screenshot shows the 'Configuration' page for 'Responsive Custom Menu CSS Settings'. The left sidebar is the same as the previous screenshot. The main content area has a 'Save Config' button in the top right. A red callout box points to the settings, stating: 'Extension css changes like text color, background color,font size,arrow style etc.'. The settings include: 'Group Title Text Color' (#1979c3), 'Group Title Background Color' (fff), 'Group Title Text Color on Hover' (fff), 'Group Title Background Color on Hover' (#1979c3), 'Group Title FontSize' (16px), 'Sub Menu Title Text Color' (#333), 'Sub Menu Title Background Color' (fff), 'Sub Menu Title FontSize' (16px), 'Sub Menu Title Text Color on Hover' (fff), 'Sub Menu Title Background Color on Hover' (#1979c3), and 'Navigation Arrows Style' (Angle Double).

## Back-end Example:-

To set no. of Groups for menu Please go to **Responsive Custom Menu -> All Groups** there you can see list of all Groups which added by you & click on **Add New Group** button for the add new group.

The screenshot displays the 'Groups' management interface. At the top, there is a navigation bar with the 'Responsive Custom Menu' logo and a sidebar with 'STORES'. The main content area is titled 'Groups' and includes a search bar, a 'Filters' button, and a 'Default View' dropdown. A yellow notification banner states 'It's time to change your password.' Below the search bar, there is a 'List of all Groups' callout pointing to a table. The table has 4 records found and shows the following data:
