Option 2: Magento 2 install extension manually .....	5
<b>Backend Example .....</b>	<b>6</b>
<b>Extension configuration.....</b>	<b>6</b>

## **Preface**

- Easily manage multi-vendor stores by assigning custom role permissions to specific managers. Let them see and edit only particular products, categories, store views and websites.
- Restrict access by store view or website
- Separate category/product management
- Limit access to product attributes
- Restrict access to dashboard statistics

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Advanced permission. The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants\_Advanced permission' → 1

**Step 4:** Disable the cache under System → Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Advanced permission, the module will be displayed in the admin panel.

## Backend Configuration

After Installation of Extension login to magento admin panel for set configuration of the extension.

**You can find configuration at Stores → Configuration → Mageants → Advanced Permission**

## Extension Configuration

as per below screen shot you can set all the settings here.

Configuration

Store View: Mageant store View

**MAGEANTS** Advanced Permission

Advanced Permission

Module Enable [store view] Yes  Use Website

Product Owner Default Admin [store view] admin  Use Website

Save Config

You can here enable module.

To create a new sub-admin role with advanced permissions, please navigate to **Admin panel → System → Permissions → User Roles**. Then, hit the **Add New Role** button.

## Role Information and Resources

- Role Users 
- Advanced: Scope
- Advanced: Categories
- Advanced: Products
- Advanced: Product Attributes

Role Information

Role Name \*

Current User Identity Verification

Your Password \*

Specify the name for a custom role

- Specify the Role Name
- Switch to the Role Resources tab
- Change the Resource Access option to Custom
- Specify the resources this role will have access to

Then, you can assign this role to certain users. Click the **Role Users** tab and flag the required users.

### Setting Advanced Permissions

With the extension, you can set up advanced permissions to provide or limit access for your store managers to the certain parts of the admin panel.

Choose Access Scope

Limit Access To: Specified Store Views

Store Views

- All Store Views
- Main Website
  - Main Website Store (Default Store View)

Limit Access To Orders: Yes

Limit Access To Business And: Yes

Annotations:

- Super admin user can restrict access by a store view or website.
- Allow to restrict the access to orders and others affected entities.

In this tab you can limit access to certain store views or websites. Modify the **Limit Access To** option to

- Allow all stores
- Limit certain websites
- Limit certain store views

For the websites and store views option you should specify the required ones.

For the website and store views options you can limit user role access to the following parts of your store

- Orders
- Invoices and Transactions
- Shipments
- Credit Memos
- Select between the Yes or No options

- Advanced: Scope
- Advanced: Categories
- Advanced: Products ✎
- Advanced: Product Attributes ✎

**Attributes Access**

Allow Access To Selected Attributes Specified the desired attributes for this user roles.

Search Reset Filter   69 records found   20 per page   < 1 of 4 >

<input type="checkbox"/>	Attribute Code	Default Label	Required	System	Visible	Scope	Searchable	Use in Layered Navigation	Comparison
<input type="checkbox"/>	<input type="text" value="Any"/>	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	name	Product Name	Yes	Yes	No	Store View	Yes	No	No
<input checked="" type="checkbox"/>	sku	SKU	Yes	Yes	No	Global	Yes	No	Yes
<input type="checkbox"/>	description	Description	No	Yes	No	Store View	Yes	No	Yes

In the **Product Attributes** tab you can restrict access to certain product attributes. Set the **Allow Access To** option to **Selected Attributes** and specify the desired attributes for this user roles.

When the configuring of a certain user role is done, hit the **Save Role** button.

## Changing Product Owner

To provide selective access to a certain product you can set up its owner.

Go to Products → Catalog  
Select the desired product  
Specify product owner in the drop-down menu.

The screenshot shows the Magento Admin interface for a product named "Crown Summit Backpack". The interface includes a sidebar with navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, and REPORTS. The main content area shows the product settings for "Crown Summit Backpack". The "Product Owner" dropdown menu is set to "admin". A callout box points to the dropdown with the text: "Super admin can change product owner right on a product settings page".
