## **Preface:**

- The Magento 2 Age Verification extension helps the store owners in seamlessly prohibiting the customers from browsing the website unless they verify their age to the minimum requirement set by the owner. The owners get to decide which specific pages to lock up behind the Magento 2 age verification pop-up and to easily customize the whole look and feel of the same.
- Allows merchants to verify customer age before granting access to the site.
- Merchants can enforce age restriction for the entire site or just for specific pages.
- Admin manage popup globally or specific page.
- Customizable display of the verification pop-up through colour and content.
- Provision for customizable templates according to different style and purpose.
- Easy and fast setup with no much technical knowledge required.

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory.  
If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Age verification. The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants\_Age verification' → 1

**Step 4:** Disable the cache under System → Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Age verification, the module will be displayed in the admin panel.

## Backend example

After Installation of Extension login to magento admin panel to set configuration of the extension.

## Frontend example

Display popup in home page as well as global as per configuration

The image shows a screenshot of an "Age Verification" popup. The popup has a teal background. At the top, there is a yellow banner with the text "Age Verification". Below the banner is a red circle with a diagonal line through it, containing a black silhouette of a person. Underneath this icon, the text reads: "You must verify that are years of age or older to enter this site." Below the text, there is a label "Enter date of Birth" in a yellow box, followed by a checkbox labeled "Verify your age". Below the checkbox is a white text input field. To the left of the input field is the text "Date of birth:". Below the input field, there are two buttons: a yellow "SUBMIT" button and a red "CANCEL" button. There are three callout boxes with arrows pointing to the form elements: one pointing to the "Enter date of Birth" label, one pointing to the "SUBMIT" button, and one pointing to the "CANCEL" button. The callout boxes contain the following text: "Enter date of Birth", "submit button to verify your age", and "cancel button to exit from the page".

**Age Verification**

You must verify that are years of age or older to enter this site.

**Enter date of Birth** ☐ Verify your age

Date of birth:

**submit button to verify your age** **SUBMIT** **CANCEL** **cancel button to exit from the page**
