## Preface

- Configurable Preselect is a perfect extension for the store owners who wants to add combination to cart by one click.
- Select an associated item of configurable product, which you would like to show by default from first options selected or set by product from backend.
- Configurable Preselect is an appropriate tool to show some popular combination to customers at once.
- Cut down time to figure out the options.
- User Friendly and flexible configuration.
- Compatible with Most of the Browser.

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory.  
If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Configurable preselect. The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants\_Configurable Preselect' → 1

**Step 4:** Disable the cache under System → Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Configurable preselect, the module will be displayed in the admin panel.

## Backend example

After Installation of Extension login to magento admin panel to set configuration of the extension.

As per below screen shot you can set all the settings here.

## Extension Configuration

From second option, you can select option to display frontend preselect options. You can select from backend product page (select product) or display first preselect option (First options) per below screen shots you can enable/disable this extension here.

One or more of the Cache Types are invalidated: Page Cache. Please go to [Cache Management](#) and refresh cache types. System
