Extension configuration.....	6
Frontend Example.....	13

Preface:

- Custom Stock Status extension provide to display custom stock status on product list , product view and cart page.it's allows replacing default Magento stock status with precise and understandable stock statuses and custom message about product availability.
- Custom stock status display in all product type
- Create multiple custom stock statuses
- Upload special icons for stock statuses
- Add statuses to products automatically or manually
- Show out of stock options of configurable items
- Display quantity based stock statuses
- User Friendly and flexible configuration.
- Compatible with Most of the Browser.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
`php bin/magento setup:upgrade`
`php bin/magento setup:static-content:deploy`

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Custom stock status. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants_Custom stock status' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Custom stock status, the module will be displayed in the admin panel.

Backend example

After Installation of Extension login to magento admin panel to set configuration of the extension.

As per below screen shot you can set all the settings here.

Extension Configuration

Add Custom Stock Status

Go to Admin Panel → Stores → Attributes → Product → Select `mageants_custom_stock_status`

In properties section Manage Options (values of your attribute) section.

Create the options for the custom stock status label.

To display current product quantity in particular stock status, use `{qty}` variable, for example: Only `{qty}` left in stock!

Use variable like :- `{qty}` , `{special_price}` , `{day-aftertomorrow}` and `{tomorrow}`.

Upload icons for Custom Stock Status

- Select mageants_custom_stock_status.
- Go to Manage Option Icon section
- Choose icons for custom stock statuses.

Rules for quantity ranges

Add quantity rules

Go to Stores → Attributes → Product and select the attribute `mageants_custom_stock_rule`.

In properties section, in the Manage Options (values of your attribute) section, create one rule for each product group, for which you will use different levels of stock.

Add custom stock status rule here

Manage Options (Values of Your Attribute)

Is Default	Admin *	Default Store View	
<input type="radio"/>	Rule1	Rule1	Delete
<input type="radio"/>	Rule2	Rule2	Delete

Add Option

Once you create the rules, go to Manage Quantity Range and specify ranges for each of these rules.

To enable the stock status rules

Go to Admin Panel → Stores → Configuration → Custom Stock Status and set to Yes the Use Activate rules for Quantity Range Status field.

Manage Quantity Ranges

- If you would like the statuses to be updated automatically, based on how many items of a product are left in the inventory, please create quantity ranges and assign the necessary statuses to the ranges.
- You can also use Stock Status Rule column. With its help, you can specify different quantity levels for the same statuses for different groups of products.
- Use backorder rules to automatically assign particular stock statuses to the products.
- If you choose to use range based stock statuses when editing a product, the stock status will change automatically once the product quantity changes.

- Manage Quantity Range**

Manage Quantity Range Status

Quantity From	Quantity To	Custom Stock Status	Custom Stock Status Rule
0	500	ONLY {qty} LEFT!	Rule2
0	100	NEW COLLECTION	No Backorders (Sysetm Value - Processed Automatically)
100	200	NEW COLLECTION	Rule1
-80	100	Available {tomorrow}	Allow Qty Below 0 (Sysetm Value - Processed Automatically)

Add New Range Status

Apply quantity-based statuses

Go to Admin Panel → Catalog → Products. Select a product. Custom Stock Status - select the custom stock status for the product at the General section.

Custom Stock Status Rule - select which quantity rule should apply to this product.

Use Quantity Ranges Based Stock Status - set to yes or no.

The screenshot shows the 'Fusion Backpack' configuration interface. On the left is a sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Custom Stock Status (active), ImagePlaza, and Reports. The main content area has a top bar with 'Back', 'Add Attribute', and 'Save' buttons. Below this, several settings are listed:

- Performance Fabric** [global]: Toggle switch set to 'No'.
- Erin Recommends** [global]: Toggle switch set to 'No'.
- New** [global]: Toggle switch set to 'No'.
- Sale** [global]: Toggle switch set to 'No'.
- Custom Stock Status** [global]: A dropdown menu showing 'ONLY {qty} LEFT!'. A callout box points to it with the text: 'Set custom stock status in particular product'.
- Custom Stock Status Rule** [global]: A dropdown menu showing 'Rule1'. A callout box points to it with the text: 'Set custom stock rule in particular product'.
- Use Quantity Ranges Based Stock Status** [global]: A toggle switch set to 'Yes'. A callout box points to it with the text: 'If set yes, used quantity range wise custom stock status'.

At the bottom, there are two expandable sections: 'Content' and 'Configurations', each with a downward arrow icon.

Custom Stock Status Settings

Go to Stores → Configuration → Mageants → Custom Stock Status, to Custom Stock Status settings Section.

Hide Default Stock Status

- **Set to Yes** - To Hide default stock status (in stock\out of stock).
- **Set to No** - To display both status default and custom stock status.
- **Display Only Custom Stock Status Icon** - If set yes, display only custom status icon.
- **Display Quantity Ranges Based Statuses** - If set yes, display custom stock status quantity range wise.

- **Use Activate rules for Quantity Range Status** - If set yes, display custom stock status quantity rules range wise.
- **Display Custom Stock Status Only 'Out Of Stock' Product** - If set yes, display custom stock status only out of stock product.
