Preface:

Delivery Date is a perfect extension for the every customer who wants to add delivery information like Delivery Date, Time-slot, Comment at the time of order placed.

This extension allows Admin to set configuration like :

- on which method delivery information should display to customer.
- set processing time - set cut off time
- add holidays to disable days for delivery
- add time slots to display time-slot for customer
- set shipping comment for customer
- set weekdays for disable delivery
- set date format for customer
- set include into option for include delivery information in email, pdf

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Delivery Date. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code:
'Mageants_DateDelivery' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Delivery Date, the module will be displayed in the admin panel.

BackEnd Example

Extension Configuration:
