Preface:

Magento 2 Estimated delivery date extension by Mageants is the perfect tool for eCommerce store owners that help to display estimated shipping and delivery date on the product details page. It is an advanced feature that enhances user experience and makes delivery easy for customers with a userfriendly interface. In short, it helps to give your customers the ability to know the estimated delivery date.

- Easy to manage delivery date and time with a user-friendly interface
- The estimated delivery date is displayed the checkout page
- Easy to set up customizable message display
- Restrict days off
- Display default message if estimated date is not set for any product

Key Features:

Help to display estimated delivery dates on multiple pages.

- 1. Magneto 2 estimated delivery date extension can provide the estimated date of arrival and shipping dates on various store pages and transactional emails for a number of pages on your website including:
- Category Page
- Product Page
- Shopping Cart Page
- Checkout Page
- Order Confirmation Email
- Invoice Email
- Shipment Email
- Order Management Page in Admin Panel
- 2. Compatible with Multiple Stores: It helps to save the time of admin time as it's functionalities are very automated. With this admin can create the same rule and apply it to all like multiple stores.
- 3. Set Estimated Date for Category: With the help of this, you can set estimated shiping and delivery date for category by different options.
- Exclude Weekends and Holidays: Admin can select weekend days and holidays as well. Holidays can be set as a recurring date, single date or a date range. Easy to add as many as global or local holidays.
- Delivery days and date configuration: As per need, you can set default delivery date message, delivery holidays and weekdays. By using different types you can set delivery holidays including recurring day, single day and for a specific period.

How does it Work?

After a configuration and installation of the Magneto 2 Delivery Date Extension, you need to do make only the required changes. It allows you to create and manage lead times for each product that available in your store and on several levels. You can also display personalized delivery messages to your customers.

Mageant's Magneto 2 delivery date extension helps you to manage the Magento 2 different product delivery date in a very simple and appropriate manner.

Why Needed?

Magento 2 delivery date extension is a perfect solution to provide an excellent shopping experience to your customers and indirectly it helps you to improve the brand. This extension not only helps to increase the level of customer service in your store but also you can choose the desired date and time for product delivery.

There are two ways of installing extension in magento2.

1) Using COMMAND LINE.

2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

- Step 1: Download the extension and unzip it.
- **Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.
- **Step 3:** Disable the cache under System \rightarrow Cache Management.
- **Step 4:** Enter the following at the command line: php bin/magento setup:upgrade php bin/magento setup:static-content:deploy
- **Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores \rightarrow Configuration \rightarrow Mageants \rightarrow **Estimated Deliverv Date.**

The module will be displayed in the admin panel.

- **Step 1:** Download the extension and unzip it.
- **Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.
- Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants_EstimatedDeliveryDate' → 1
- **Step 4:** Disable the cache under System \rightarrow Cache Management
- Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Estimated Delivery Date, the module will be displayed in the admin panel.

Configuration :

After Installation of Extension in to Magento admin panel for set configuration of the extension.

Go to Stores \rightarrow Configuration \rightarrow Mageants \rightarrow Estimated Delivery Date then configure as per your requirement.

Configuration
