Preface:

- CookieLaw Extension allows to display notice on website to customers that site is using cookies.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Cookie law, The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

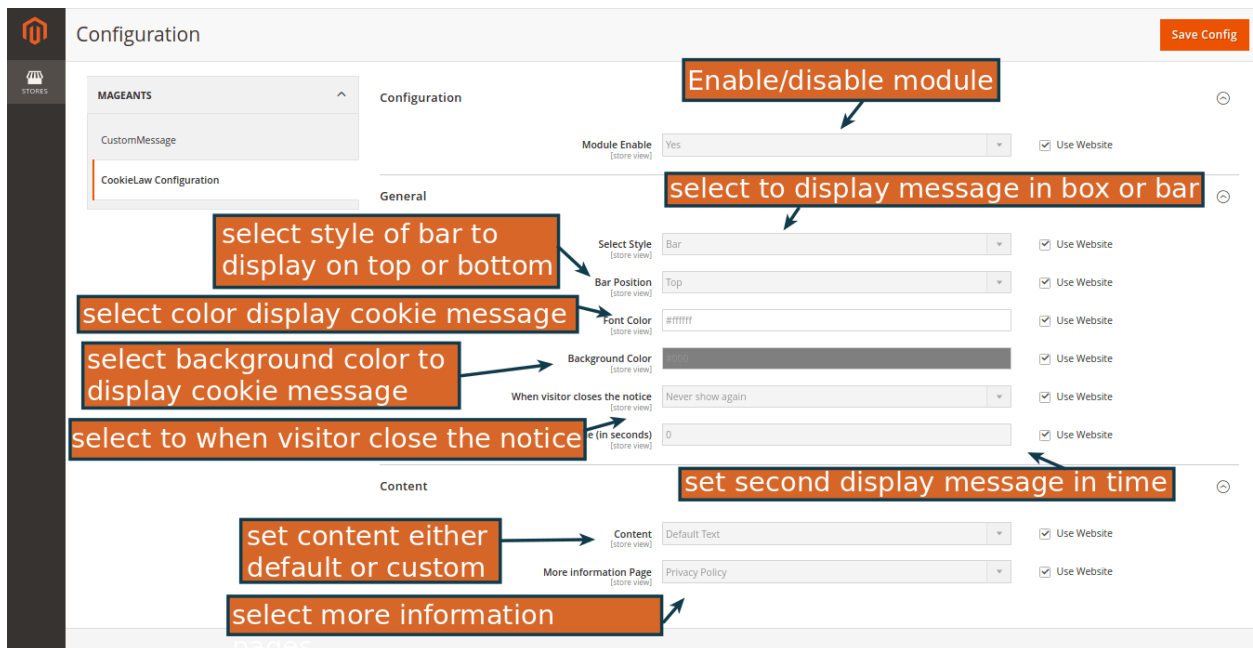

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code:
'Mageants_cookie law' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to Stores → Configuration → Mageants →
cookie law, the module will be displayed in the admin panel.

Admin Configuration

The screenshot shows the Admin Configuration page for the CookieLaw Configuration module. The page is divided into sections: Configuration, General, and Content. The Configuration section includes a 'Module Enable' dropdown set to 'Yes' and a 'Use Website' checkbox. The General section includes 'Select Style' (Bar), 'Bar Position' (Top), 'Font Color' (#ffffff), 'Background Color' (a dark grey swatch), and 'When visitor closes the notice' (Never show again). The Content section includes 'Content' (Default Text) and 'More Information Page' (Privacy Policy). Annotations with arrows point to these fields, providing instructions on how to configure them.

Annotations:

- Enable/disable module (points to Module Enable)
- select to display message in box or bar (points to Select Style)
- select style of bar to display on top or bottom (points to Bar Position)
- select color display cookie message (points to Font Color)
