Preface:

- Magento 2 Event Manager extension allows you to create online upcoming events in your store. With the help of Event Manager extension you can create attractive events and also sell tickets. You can also add images, videos and content of particular event to highlight your event. provided contact person details and google map view to the location of event. Event manager extension also enable calendar view for customers so customer can easily shows upcoming events in calendar view.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Events Manager. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code: 'Mageants_EventManager'
→ 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to Stores → Configuration → Mageants →
Events Manager, the module will be displayed in the admin panel.

Backend example

After Installation of Extension login to magento admin panel to set configuration of the extension.

The Indian Premier League (IPL) is a professional Twenty20 cricket league in India contested during March or April and May of every year by eight teams representing eight different cities in India.[3] The league was founded by the Board of Control for Cricket in India (BCCI) in 2008. The IPL has an exclusive window in ICC Future Tours Programme.[4] The IPL is the most-attended cricket league in the world and in 2014 ranked sixth by average attendance among all sports leagues.[5] In 2010, the IPL became the first sporting event in the world to be broadcast live on YouTube.[6][7] The brand value of the IPL in 2019 was ₹475 billion (US\$6.9 billion), according to Duff & Phelps.[8] According to BCCI, the 2015 IPL season contributed ₹11.5 billion (US\$170 million) to the GDP of the Indian economy.[9] [Learn More](#)

Great International Developer Summit 2020

Great International Developer Summit is the longest running, independent polyglot conference series for software practitioners in Asia-Pacific. With over 56,300 attendees benefiting from 12 game changing editions, GIDS is the gold standard for the region's software developer ecosystem for gaining exposure to and evaluating new projects, tools, services, platforms, languages, software and standards.

This year, the focus of the summit is on improving the implementation of technology amidst the transformations in programming languages, modern web, cloud, Java, data, AI and ML, software architecture and methodology, as well as addressing key challenges of technology leadership. We aim to bring together the most passionate technologists along with new, interesting people to showcase how software practitioners are using tools and technology to solve their challenges and are building great engineering teams.
