Preface:

- Facebook Suit is perfect extension for the store owners who wants to connect store with facebook. Once you enable this extension in your store as described follow it will apply Facebook Login, Like, Share, Comment, Messenger, Follow and Pixel. When customer click on link it will perform task associate with the facebook Account.

Following are some Points or benefit of FacebookSuit extension.

- Customer facebook login using Api and when login using facebook first time in site that time send mail for set password to customer email.
- Easy to login using facebook account to our site.
- facebook like and share product on facebook and also display count for the like and share.
- Facebook Messenger functionality also provide for send message to friend using private message.
- Facebook follow using that customer can follow to admin facebook account.
- Facebook Pixel functionality use for the graph representation of the site page request.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Facebook suit.
The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code: 'Mageants_Facebooksuit' →
1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to Stores → Configuration → Mageants →
Facebook suit, the module will be displayed in the admin panel.
