## **Preface:**

- Wish list Notification is perfect extension for the store owners who wants to wish list notification whenever customer can add new item in his wish list.
- Whenever a customer puts a product on his wish list you can get email with all products which are being put on the customer's wish lists.
- User Friendly and flexible configuration
- Admin can easily add his email subject & email address from backend.

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Wishlist notification, The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code:  
'Mageants\_Wishlistnotification' → 1

**Step 4:** Disable the cache under System → Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Wishlist notification, the module will be displayed in the admin panel.

## Admin Configuration

After Installation of Extension log in to magento admin panel for set configuration of the extension.

Extension menu and sub menu:

The screenshot shows the Magento Admin Configuration page for the 'Wishlist Notification' extension. The page is titled 'Configuration' and includes a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. A yellow notification bar at the top states 'It's time to change your password.' The configuration options are organized into sections: 'MAGEANTS' (CustomMessage) and 'CUSTOMERS' (Wishlist Notification). The 'Wishlist Notification' section contains three fields: 'Email Subject' (with a red box labeled 'Add email subject here'), 'Email Address' (with a red box labeled 'Add email address here'), and 'Wishlist Notification Email Template' (with a red box labeled 'select email template').
