Preface

The Google Customer Reviews module allows to automatically add the Survey Opt-in in the checkout page as required by the Google Customer Reviews service.

Collect the reviews and display it in the badge, shopping ads or search results.

The genuine reviews help gain credibility and users' trust, resulting in more traffic.

Improve your search engine optimization. Study what your customers say about your business that'll help optimize the weak areas.

Installation:

There are two ways of installing extension in magento2.

Using COMMAND LINE.
 Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

- Step 1: Download the extension and unzip it.
- **Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.
- **Step 3:** Disable the cache under System \rightarrow Cache Management.
- Step 4: Enter the following at the command line: php bin/magento setup:upgrade php bin/magento setup:di:compile php bin/magento setup:static-content:deploy -f
- Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Google Customer Reviews, The module will be displayed in the admin panel.

- **Option 2:** Magento 2 install extension manually.
- **Step 1:** Download the extension and unzip it.
- **Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.
- Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants GoogleCustomerReviews' → 1
- **Step 4:** Disable the cache under System \rightarrow Cache Management
- Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Google Customer Reviews, the module will be displayed in the admin panel.
