## **Preface**

Magento 2 Layered Navigation extension improves customers' shopping experience by enhancing store navigation. By default, the platform doesn't allow to select several filter attributes at once. This is where Layered Navigation module comes helpful

- **This extension is providing below functionalities.**
  - Enable or disable the Layered Navigation module.
  - Ajax Loading page.
  - Multi-filters.
  - Filter by multiple attributes.
  - Top scrolling after filtering.
  - Use Price Slider filter to set the suitable price range.
  - Multi filter category.
  - Allow your visitors to filter by multiple attributes.
  - empty filter option show on product list page.

## Installation:

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

### **Option 1: Magento 2 install extension using COMMAND LINE (Recommended)**

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management.

**Step 4:** Enter the following at the command line: php  
bin/magento setup:upgrade

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to **Stores -> Configuration -> Mageants → Layered Navigation** the module will be displayed in the admin panel.

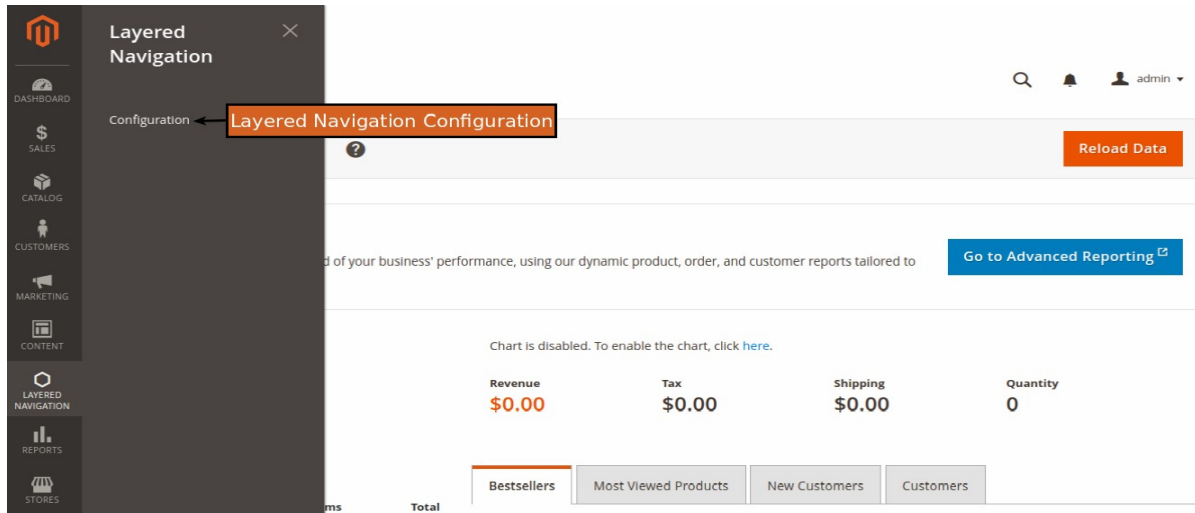

## Option 2: Magento 2 install extension manually

- Step 1:** Download the extension and unzip it.
- Step 2:** Upload it to code directory in your magento installation's app directory If code directory does not exists then create.
- Step3:** Disable the cache under System->Cache Management Edit app/etc/config.php file and add one line code: '**Mageants\_LayeredNavigation** => 1.
- Step 4:** Disable the cache under System -> Cache Management
- Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to **Stores -> Configuration -> Mageants** → **Layered Navigation**, the module will be displayed in the admin panel.

## Back-end Example:

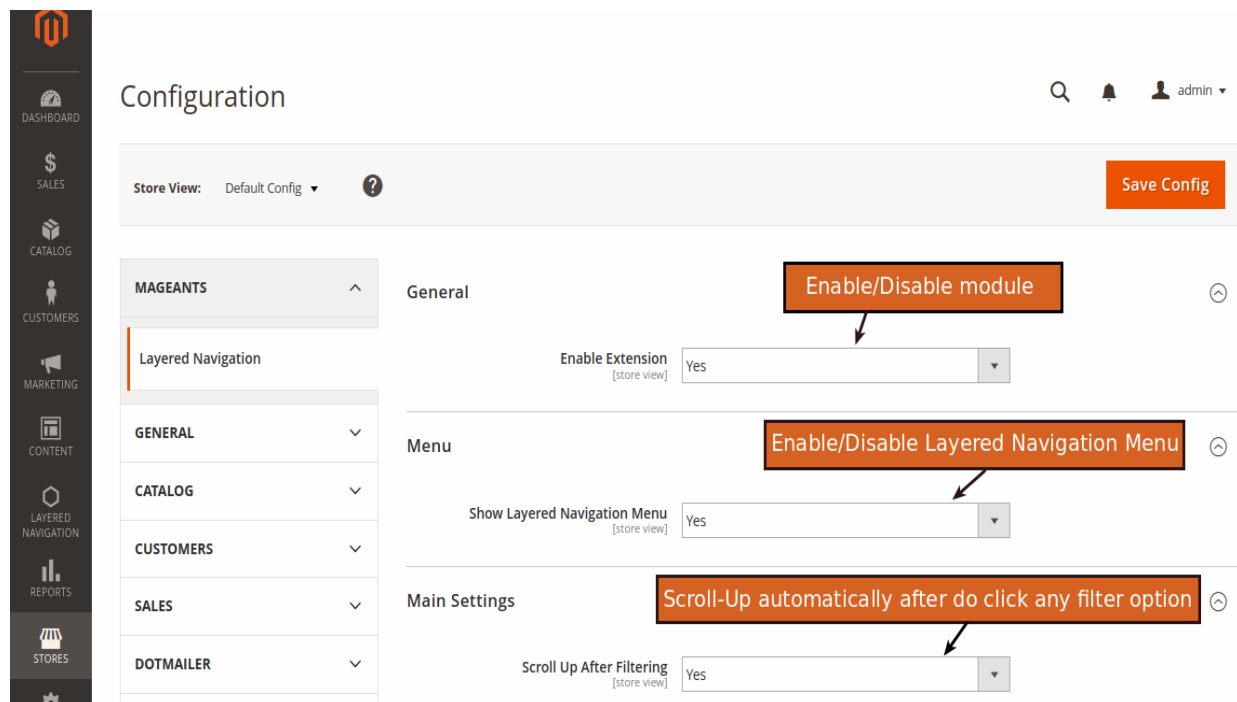

Admin can set configuration as per below screenshot.

### Extension Configuration:

### CONFIGURATION:

- After Installation of Layered Navigation go to magento admin panel for set configuration of the extension.

## General:

- Set a Enable/Disable Module.

## Menu:

- You can enable an option of Show Layered Navigation Menu.

## Main Settings:

- You can enable an option of scrolling to the top after filter applying by ajax. You can choose one of the two options(Yes/No).

The screenshot shows the 'Attribute Filters' configuration page in Magento. On the left is a sidebar with navigation icons. The main area has a 'Configuration' header and a 'Save Conf' button. Below the header, there's a 'SERVICE' dropdown and a 'Configuration' dropdown set to 'ADVANCED'. The main content is titled 'Attribute Filters'. It features two columns: 'All Attributes' and 'Attributes Used in Layered Navigation'. An orange callout box with an arrow points from the text 'Drag here for attributes used in layered navigation' to the 'Attributes Used in Layered Navigation' column. Another orange callout box with an arrow points from the text 'Show empty filter options' to a dropdown menu labeled 'Show Empty Filter Options' with the value 'No' selected. A 'Save Conf' button is in the top right corner.

## Attribute Filters:

- Here you can add or drag attributes from all attributes to use in Layered Navigation.
- Show empty filter options.

## Front-end Example:

- Layered Navigation will be displayed on the front end product list page when admin has enabled module and category configuration from back-end.
