Preface

Google reCaptcha is perfect extension for the store owners who wants to protect store from spams and avoid the requirements the bots.

This extension is providing below functionalities.

1. Google reCaptcha provide to visible and invisible reCaptcha.
2. Google reCaptcha provide in different language code of Google reCaptcha.

Installation

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code Directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line:
Php bin/magento setup:upgrade
Php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to **Store → Configuration → Mageants → Google Recaptcha**, the module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code Directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management Edit app/etc/config.php file and add one line code:
'Mageants_GoogleRecaptcha' => 1

Step 4: Disable the cache under System -> Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Menu **Store → Configuration → Mageants → Google Recaptcha**, the module will be displayed in the admin panel.

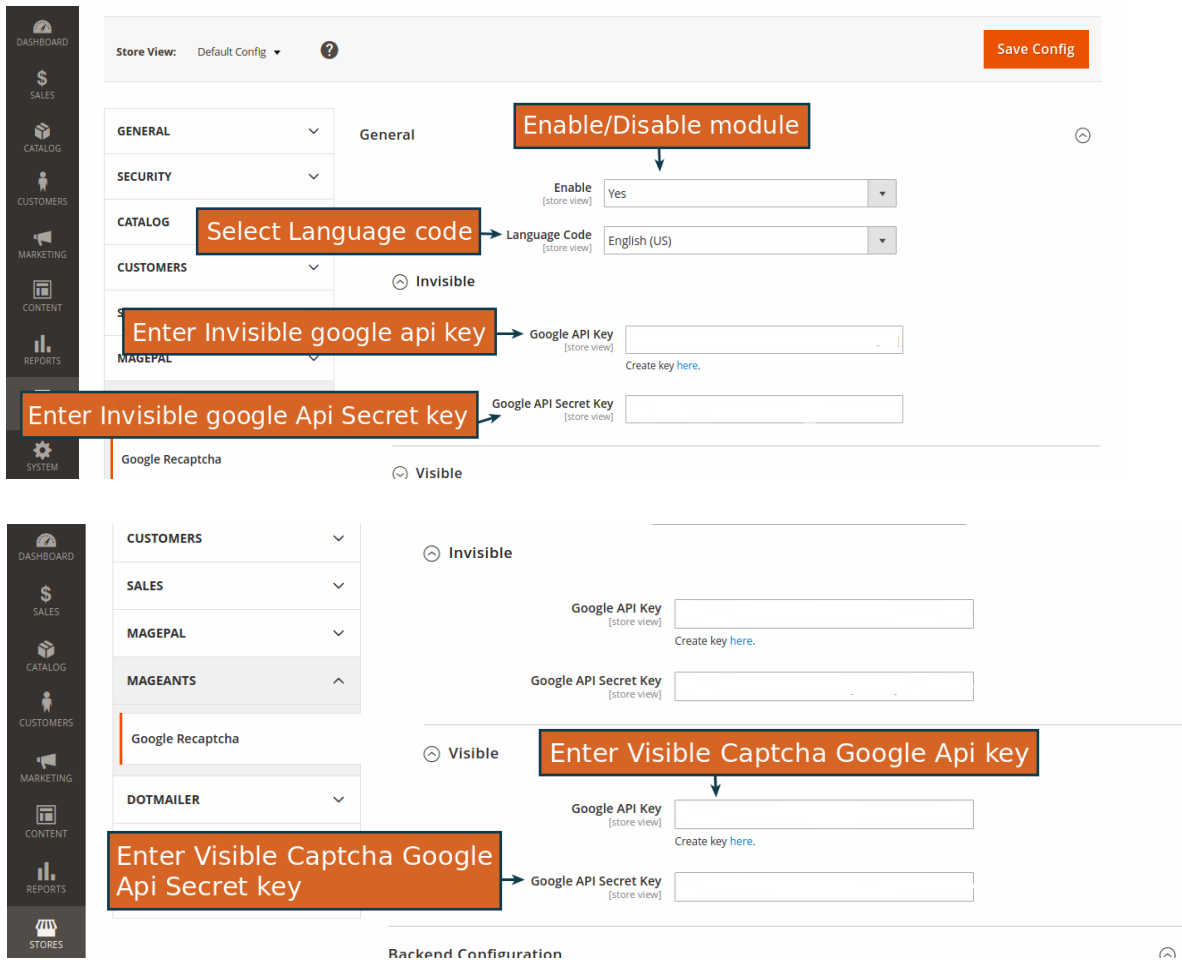

Backend Example:

After Installation of Extension login to magento admin panel to set configuration of the extension.

Reviews Form

Using this Extension display invisible Google reCaptcha In password reset form

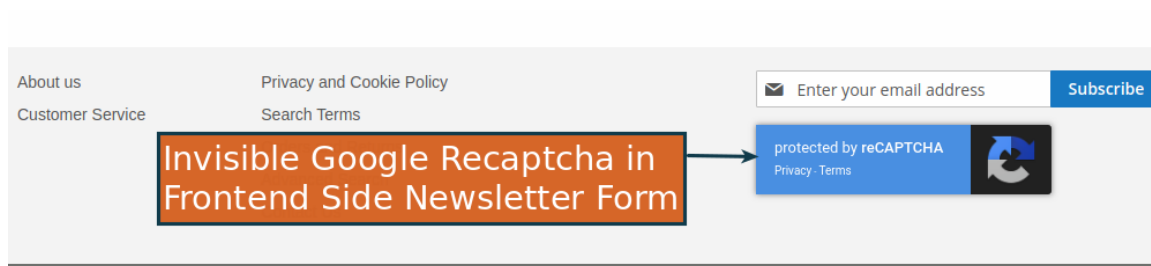

The screenshot shows the 'Account Information' section of a Magento user's profile. The 'Change Password' form is visible, containing fields for 'Current Password', 'New Password', and 'Confirm New Password'. A blue box with the text 'protected by reCAPTCHA' and a reCAPTCHA logo is positioned below the 'New Password' field. An orange callout box with the text 'Invisible Google Recaptcha in Frontend Side Change Password Form' points to the reCAPTCHA widget.

Using this Extension display invisible Google reCaptcha In checkout-login popup form

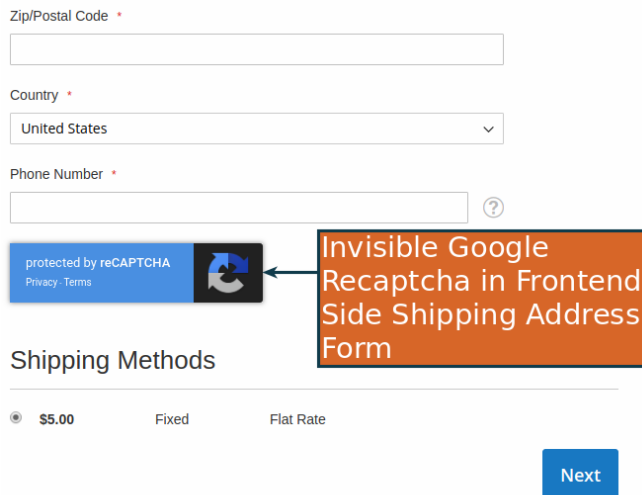

The screenshot shows a 'Sign In' popup form. It contains fields for 'Email Address' and 'Password'. Below the 'Password' field, there is a blue box with the text 'protected by reCAPTCHA' and a reCAPTCHA logo. An orange callout box with the text 'Invisible Google Recaptcha in Frontend Side Checkout Login Popup Form' points to the reCAPTCHA widget. The form also includes a 'Forgot Your Password?' link and a 'Sign In' button.

Using this Extension display invisible Google reCaptcha In newsletter form

Using this Extension display invisible Google reCaptcha In shipping address form

A screenshot of a Magento website's shipping address form. The form contains several input fields: "Zip/Postal Code", "Country" (a dropdown menu showing "United States"), and "Phone Number". Below these fields, there is a blue box with the text "protected by reCAPTCHA" and a small reCAPTCHA logo. An orange callout box with the text "Invisible Google Recaptcha in Frontend Side Shipping Address Form" points to the reCAPTCHA box. Below the reCAPTCHA box, there is a section for "Shipping Methods" with three options: "Fixed" (selected), "Flat Rate", and "Flat Rate". A blue "Next" button is located at the bottom right of the form.
