Preface :

- It is designed for those having the plan to launch out Magento 2 websites. Instead of showing blank words like "We are coming soon!" it is a must to create an eye-catching Coming Soon page to earn loves of early audiences. this extension is required whenever your websites are under Service . Hence, Mageants has developed Maintenance Mode for Magento 2 extension to Say goodbye the incommunicative default maintenance page. A dedicated message and a specific maintenance end time make a user-friendly experience.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Maintenance Mode.

The module will be displayed in the admin panel.

Option 1: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code:
'Mageants_MaintenanceMode' label' → 1

Step 4: Disable the cache under System → Cache Management

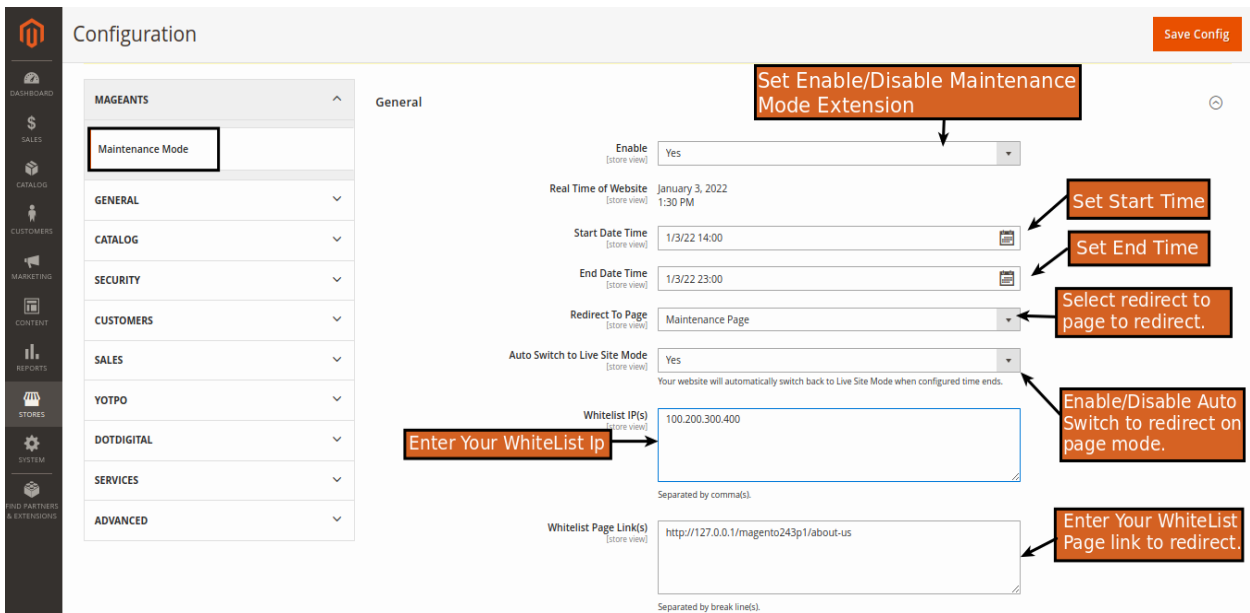

Step 5: Once you complete above steps log out and log in back to the admin panel and
switch to Stores → Configuration → Mageants →
Mageants_MaintenanceMode, the module will be displayed in the admin
panel.

The module will be displayed in the admin panel.
