## **Preface:**

- Multiple Coupons Extension allows customers apply multiple coupon codes at shopping cart , checkout and backend creating order.
- Apply multiple coupons at shopping cart page.
- Apply multiple coupons at checkout page.
- Apply multiple coupons when creating order in Magento admin panel.
- Allow guest customer to use multiple coupons.
- Limit usage of specific coupons together with other promo codes.
- Applying or remove applied coupons easily.
- Set unique coupons which can reject others.

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Multiple coupon. The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants\_Multiplecoupon' → 1

**Step 4:** Disable the cache under System → Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Multiple coupon, the module will be displayed in the admin panel.

## Configuration

Store → Configuration → Mageants → Multiple Coupon

### Unique Coupons Code :-

It is helpful to avoid multiple discount coupons code used in the same cart. When the specific coupon in this field is applied, all other coupons will be canceled. For Example, you would like to start sale ( 60% off for everything) but same time you have another offer ( 30% off for specific category ). If you don't want to use both offer on same cart then you can set coupons here. If applied this coupons then other coupons code remove.

The screenshot shows the Mageants configuration interface. On the left is a sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, and System. The main area is titled 'Configuration' and shows the 'Multiple Coupon' section under 'MAGEANTS' > 'General'. The 'Unique Coupon Code' field is set to 'WINTERSALE,SALE'. Below the field, a note states: 'The coupon codes are separated by commas. Once any unique coupon code is applied, all other coupons will be removed.' An orange callout box with an arrow pointing to the field contains the text: 'Specify Unique Coupons Code Can't Be Used Together With Other Codes'. The top right of the configuration area includes a search icon, a notification bell with '2', and a user profile for 'admin'. A 'Save Config' button is located at the top right of the configuration area.

## Coupons Configuration :-

### Marketing → Cart Price Rule

The screenshot shows the 'Marketing' menu in the Magento Admin interface. The 'Cart Price Rules' option is highlighted with a blue box. The menu items are as follows:

- Promotions
- Catalog Price Rule
- Cart Price Rules**
- Communications
- Email Templates
- Newsletter Template
- Newsletter Queue
- Newsletter Subscribers
- Social
- Connect to Facebook
- SEO & Search
- URL Rewrites
- Search Terms
- Search Synonyms
- Site Map
- User Content
- Reviews
- Marketing Automation
- Automation Studio
- Exclusion Rules

The screenshot shows the 'Cart Price Rules' configuration page in the Magento Admin interface. The page title 'Cart Price Rules' is highlighted with a blue box. The page includes a search bar, a 'Reset Filter' button, and a table listing 6 records. The table columns are ID, Rule, Coupon Code, Start, End, Status, Web Site, and Priority.

ID	Rule	Coupon Code	Start	End	Status	Web Site	Priority
