Preface:

- Front Order comment is perfect extension for store owner who wants to give functionality to customer who can place comment for his/her order time, so they can see their comment on later from order view page.
- Order comment extension is totally based on Knockout.js
- it give Order comment section to customer for put comment at the time of place order.
- customer put comment on order so on later he/she can see the comment and get idea behind the place order.
- In order view page customer can see the comment which is given on order time.
- Admin can also see the comment on order view page at admin panel.
- Extension is easy to configure.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Order comment, The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

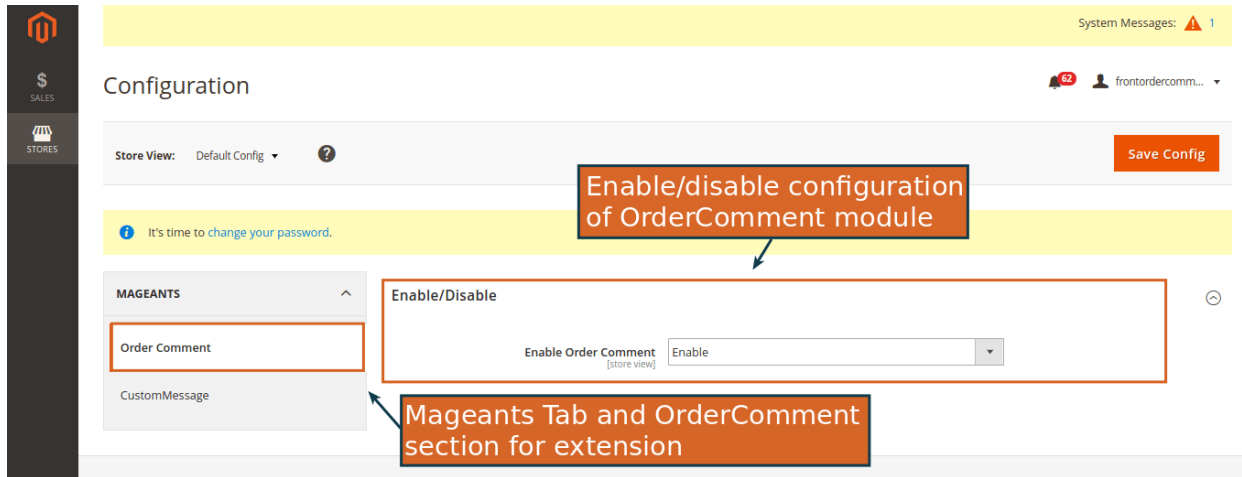

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code:
'Mageants_order comment' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Order comment, the module will be displayed in the admin panel.

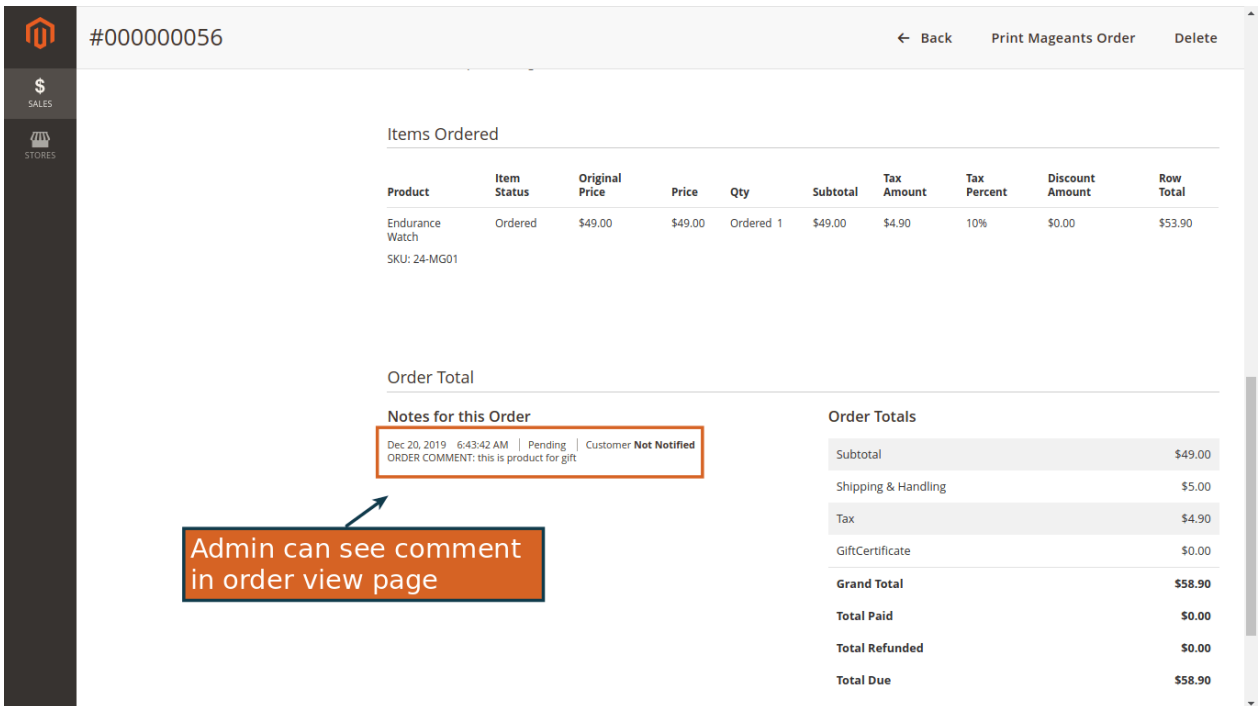

Admin Configuration

The screenshot shows the Admin Configuration interface. On the left sidebar, the 'MAGEANTS' tab is selected, and the 'Order Comment' section is highlighted. In the main configuration area, the 'Enable/Disable' section is visible, with a dropdown menu set to 'Enable'. A 'Save Config' button is located in the top right corner. A system message at the top right indicates 'System Messages: 1'. A notification at the top left says 'It's time to change your password.'.

Enable/disable configuration of OrderComment module

Mageants Tab and OrderComment section for extension

The screenshot shows the Admin Order View page for order #000000056. The page includes a navigation bar with 'Back', 'Print Mageants Order', and 'Delete' options. The 'Items Ordered' section contains a table with the following data:

Product	Item Status	Original Price	Price	Qty	Subtotal	Tax Amount	Tax Percent	Discount Amount	Row Total
Endurance Watch SKU: 24-MG01	Ordered	\$49.00	\$49.00	Ordered 1	\$49.00	\$4.90	10%	\$0.00	\$53.90

The 'Order Total' section includes a 'Notes for this Order' box containing the text: 'Dec 20, 2019 6:43:42 AM | Pending | Customer Not Notified | ORDER COMMENT: this is product for gift'. The 'Order Totals' section shows the following summary:

Order Totals	Amount
