Preface

The Mageants Stock Notification is the perfect extension for those vendors who want to send notification to the customer whenever stock of product available. By notifying the customer, Vendor can increase sales by taking interest of the customer. The vendor also can know about the popularity of product by getting the number of subscriptions of product. This module is also useful to get report of subscription list as well as lower qty products. By report of lower qty products, vendor can easily manage to make products available. Very often in busy schedule and lot's of products it may possible to pay attention on stock of products. Stock notification's report will remind you to work on qty of particular products as the demand of products

Installation

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

- Step 1: Download the extension and unzip it.
- **Step 2:** Upload it to code directory in your magento installation's app directory If code directory does not exists then create.
- **Step 3:** Disable the cache under System -> Cache Management.
- Step 4: Enter the following at the command line: php bin/magento setup:upgrade
- Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Advanced -> Advanced, the module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually

- Step 1: Download the extension and unzip it.
- Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.
- Step 3: Disable the cache under System -> Cache Management Edit app/etc/config.php file and add one line code: 'Mageants_OutofStockNotification' => 1
- Step 4: Disable the cache under System -> Cache Management
- **Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Out of stock configuration, the module will be displayed in the admin panel.

Back-end Example
