Preface :

- The Payment Restriction extension for Magento 2 lets you add new Rule For Payment Restriction. Display all created Rule on a backend grid.
- Create Multiple Rules For Restrict Payment Method Based On Various Condition And Configuration. Display Different Payment Methods For Orders Depending On Cart Attribute.
- Also Apply Restriction on Shipping Address And Customer Group.
- You can Apply Shipping Restriction Rule On Shipping Method, Subtotal, Category, Particular Sku, Zipcode, Shipping Country, Etc.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended). Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
`php bin/magento setup:upgrade`
`php bin/magento setup:static-content:deploy`

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → PaymentRestriction.
The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line
code: 'Mageants_**PaymentRestriction**' → 1

Step 4: Disable the cache under System → Cache Management

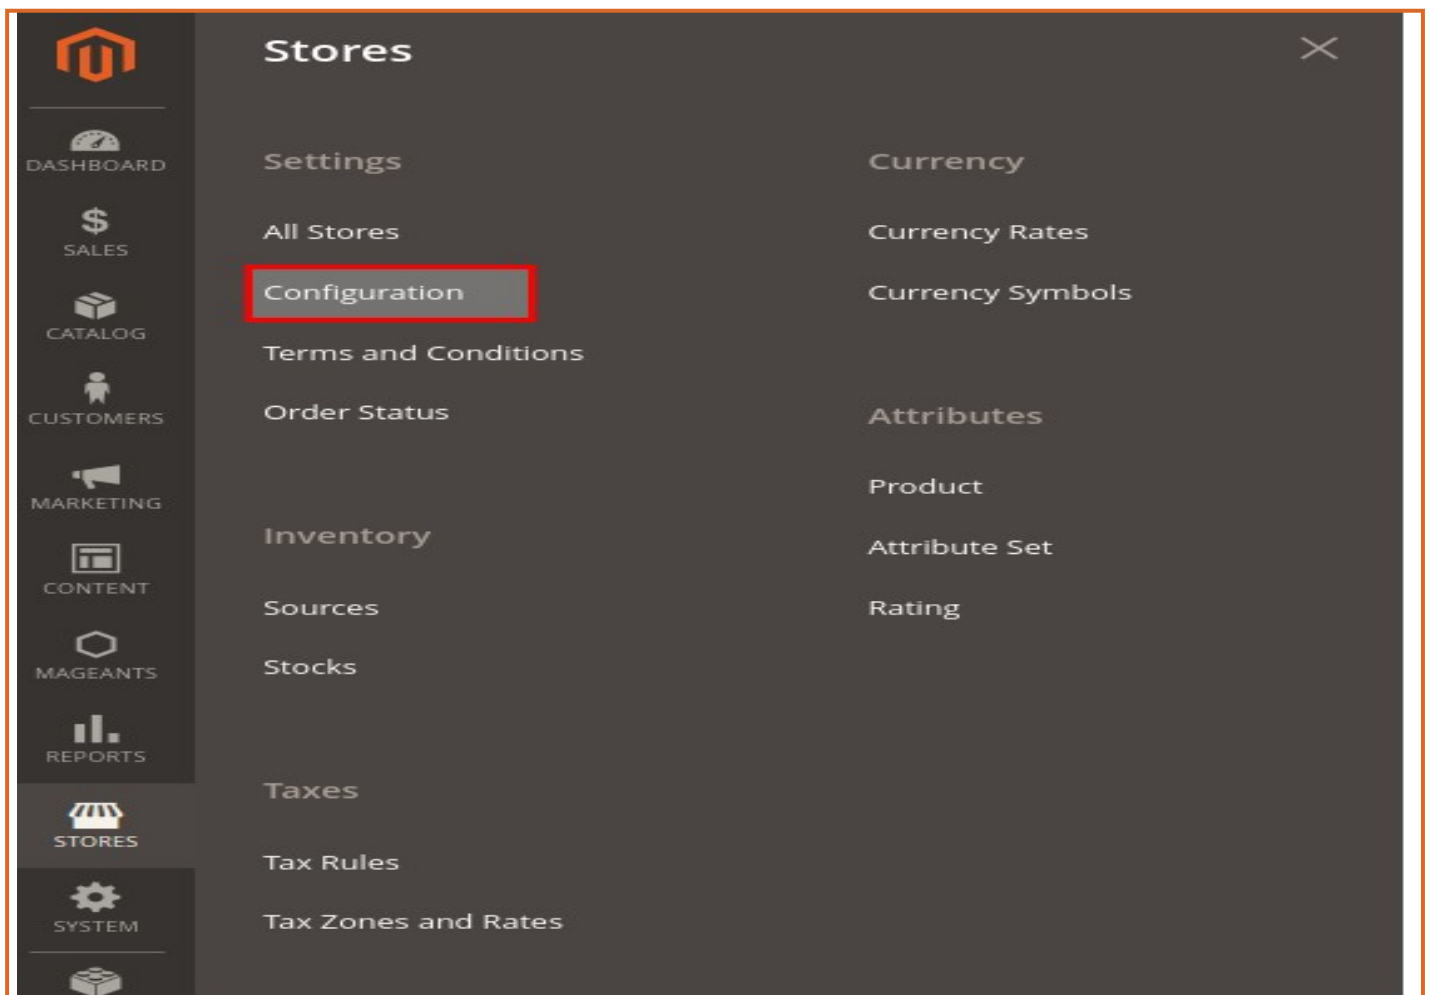

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → PaymentRestriction,
the module will be displayed in the admin panel.

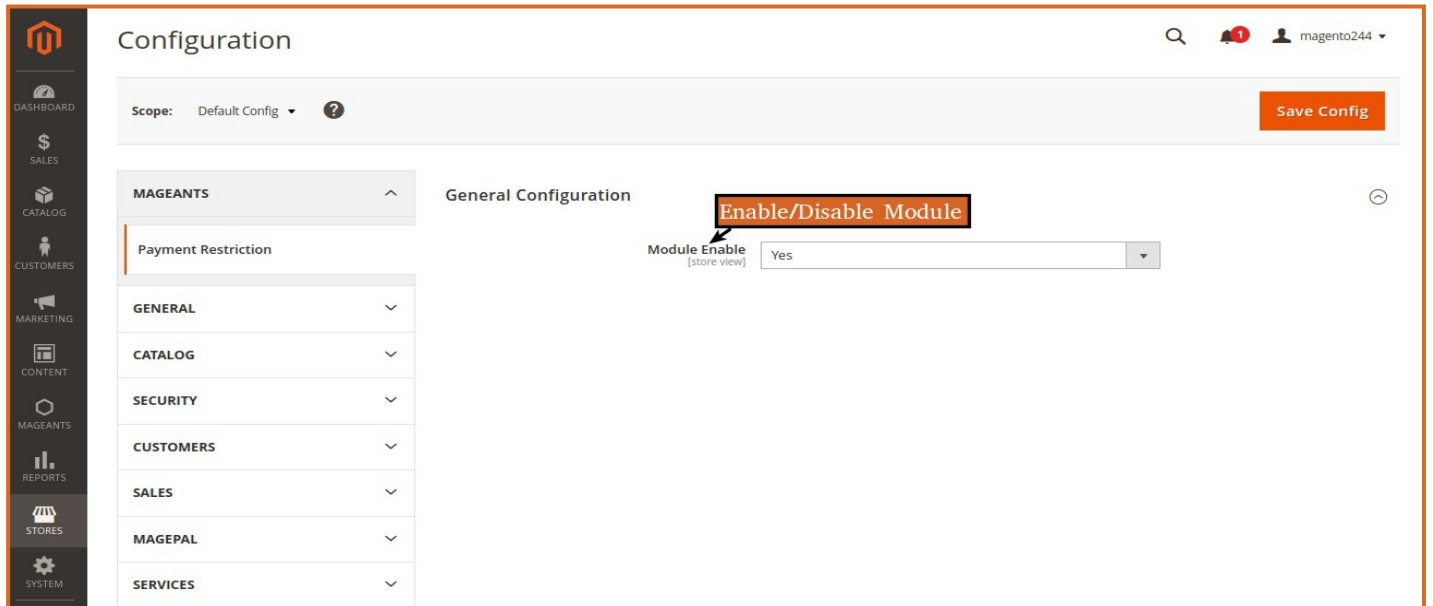

Backend example : CONFIGURATION

After Installation of Extension login to magento admin panel to set configuration of the extension.

As per below screen shot you can set all the settings here.

Extension configuration:

General Setting :-

- User can select enable and disable Extension.

Menu:

To manage Rule for Please go to Mageants Payment Restriction there you can add Rule on particular item. Here you can manage on all Rule.

The screenshot shows the MageAnts dashboard interface. On the left sidebar, the 'Payment Restriction' menu item is highlighted with an orange box and an arrow pointing to it. A text box next to the arrow says 'Click On Payment Restriction Button to show Payment Data'. The main content area displays a 'Payment Restriction' configuration page. At the top right, there is a 'Reload Data' button. Below this, there is a section for 'Go to Advanced Reporting'. The dashboard also shows a summary of business performance with metrics: Revenue (\$0.00), Tax (\$0.00), Shipping (\$0.00), and Quantity (0). A table at the bottom shows 'Items' and 'Total' values, with a message 'We couldn't find any records.'

Items	Total
1	\$45.00
1	\$34.00
1	\$34.00
