## Preface

Mageants Product360 View is a extension for the store owners who wants to Show there products with 360 angel view. Visitor can see product with 360 angle and thats give more changes to sell product. This extension help visitor to view actual product without physical appearance of product.

- Enable / Disable module configurations
- Create separate 360 view for each product.
- Set height / width of fronted product360 view
- Full screen, Blur and ease animation effect and Product 360 view animation speed feature.

## Installation

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

### **Option 1: Magento 2 install extension using COMMAND LINE** (Recommended)

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management.

**Step 4:** Enter the following at the command line:

```
Php bin/magento setup:upgrade  
Php bin/magento setup:static-content:deploy
```

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants → Product360Image, the module will be displayed in the admin panel.

## **Option 2: Magento 2 install extension manually**

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management Edit app/etc/config.php file and add one line code:  
'Mageants\_Product360Image' => 1

**Step 4:** Disable the cache under System -> Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants → Product360Image, the module will be displayed in the admin panel.

## Backend Example:

After Installation of Extension login to magento admin panel to set configuration of the extension.

As per below screen shot you can set all the settings here.

## Extension Configuration

Store → Configuration → Mageants → Product360 Images

You can enable / disable the Product360 View functionality.

You can set display parent product360 images when child product don't have product360 images for configurable product.

The screenshot shows the Magento Admin Configuration page for the 'Product360 Image' extension. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and shows the 'MAGEANTS' section expanded to 'Product360 Image'. The 'General' tab is selected, displaying two configuration options: 'Enable Product360 [store view]' set to 'Enabled' and 'Display Parent Product360 Images [store view]' set to 'No'. A red box labeled 'Enable/Disable Extension' points to the 'Enable Product360' dropdown. Another red box labeled 'Display parent product360 images for configurable product.' points to the 'Display Parent Product360 Images' dropdown. A tooltip for the second option reads: 'If Yes. Display parent product360 images when child product don't have product360 images.' The top right of the configuration area includes a search icon, a notification bell with '2', a user profile 'admin', and a 'Save Config' button.

To manage contact messages Please go to Catalog → Grid (Action)  
 → Product360 New/Edit/Delete there you can manage Product360 View.  
 You can create,edit or delete Product360 View from here,

## Menu :

The screenshot shows the Magento Catalog Grid interface. The top navigation bar includes the 'Catalog' title and an 'Add Product' button. Below the navigation bar, there are filters, a 'Default View' dropdown, and a 'Columns' dropdown. The main content area displays a table of products with columns for ID, Thumbnail, Name, Type, Attribute Set, SKU, Price, Quantity, Visibility, Status, Websites, and Action. The table contains three rows of product data. An orange callout box with the text 'Create new or edit existing product 360 view' points to the 'Product360 New' option in the 'Action' column of the second row.
