Preface:

- The **Product image Upload By Customer** is extension in which user can upload multiple images from front-end on the product page. Even though other user will get to know the real quality of the product by examining the photos available on gallery. Except this admin can upload an images of the product by back-end also.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Product image by customer. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code: 'Mageants_Product image
by customer.' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to Stores → Configuration → Mageants →
Product image by customer., the module will be displayed in the admin
panel.

Backend example

After Installation of Extension login to magento admin panel to set configuration of the extension.

As per below screen shot you can set all the settings here.

Extension configuration

You can find configuration at **Stores -> Configuration -> Mageants -> Product image By customer**

The screenshot displays the 'General Configurations' for the 'MAGEANTS' extension. The left sidebar shows the navigation menu with 'MAGEANTS' selected. The main content area has several settings:

- Module Enable/Disable:** A dropdown menu set to 'Yes'.
- Enabled [store view]:** A dropdown menu set to 'Yes'.
- Version: 1.0.0**
- Allow Guest To Upload Images [store view]:** A dropdown menu set to 'Yes'.
- Email Required [store view]:** A dropdown menu set to 'Yes'.
- Tab Title [store view]:** A text field containing 'Customer Images'.
- Tab Discription [store view]:** A text area with a 'Show / Hide Editor' button.

Orange callout boxes with arrows point to specific settings:

- 'If yes, allow guest customer to Upload image' points to the 'Allow Guest To Upload Images' dropdown.
- 'Yes to required email' points to the 'Email Required' dropdown.
- 'Click to set Tab panel Title' points to the 'Tab Title' text field.
- 'Tab Panel Description goes here' points to the 'Tab Discription' text area.

as per below screen shot you can set all the settings here.
