Preface:

- With help of Review Reminder extension we got customer buying product review email automatically at a set time after an order has been placed and increase customer interaction with our stores.
- It is very difficult to find product reviews from customers after purchasing products. with the support of Review Reminder extension the admin can customize the review **email-templates**, **email sender**, email send for **email subscriber only**, with help of email **send after time** to change the email delivery time.
- Automatically sending review reminder emails to customers encourage for product reviews and customers to come back and write some words for purchasing products review.
- The more reviews you get, the more trustworthy the store looks, which is an important factor for customers to decide on buying products from your store.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line:

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to
Stores → Configuration → Mageants → ReviewReminder,
The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code:
'Mageants_ReviewReminder' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to
Stores → Configuration → Mageants → ReviewReminder,
the module will be displayed in the admin panel.

Backend example
