Preface:

- Store Admin can Sell Sample Products with custom price added from admin.
- So customers can buy a sample product .

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.

If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

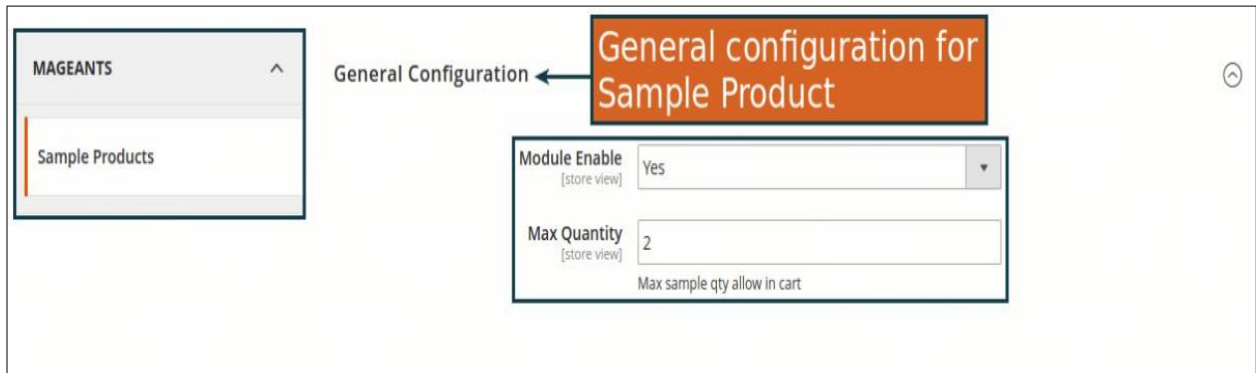

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code:
'Mageants_sampleproduct' → 1

Step 4: Disable the cache under System → Cache Management

Back-end Example:

After Installation of Extension login to magento admin panel to set configuration of the extension.

Extension Configuration:

General Configuration

General configuration for Sample Product

Module Enable [store view] Yes
