Preface

- Using Look Book extension, Store manager can combine multiple products to single product, so customer can purchase whole look.
- Using this, customer has an option to check the look book collection and purchase it.
- If customer delete any product from look and purchase then customer not able to allow for discount.
- Store manager can create multiple categories and assign look book products to the created categories.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → lookbook.
The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants_lookbook' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → lookbook, the module will be displayed in the admin panel.

Backend example

After Installation the Extension, Go to Store → Configuration → Mageants Extension → Shopbylook Configuration, Where Store Manager can set the option.
