Preface

- This **Product Tabs** Module is the best tools to show the product information via Product Tabs in Magento2. It includes the advanced features to help you customize the product tabs easily.

- **Product Tabs** Module Help You to:

- I. Add new tabs to Magento2 product pages.
- II. Add the unlimited number of product tabs.
- III. Customize Default Product tabs according to your needs.
- IV. Show product tabs with dynamic content.
- V. Show the content taken from static blocks, CMS Pages, etc.
- VI. Show a Related/ Up-sell products in products tab.
- VII. Set flexible rules for custom tabs.
- VIII. Change Tab View according to need.(Accordion View / Tab View).

Installation:

There are two ways of installing extension in magento2.

- Using COMMAND LINE.
- Manually Install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory If code directory does not exists then create.

Step 3: Disable the cache under System -> Cache Management.

Step 4: Enter the following at the command line: php
bin/magento setup:upgrade

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to **Stores -> Configuration -> Mageants** → **Product Tabs**, the module will be displayed in the admin panel.

Step 6: On the last step go to admin panel and switch to **Catalog -> Tab Management** , it will be displaying the admin grid.

Option 2: Magento 2 install extension manually

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System->Cache Management. Edit app/etc/config.php file and add one line code:
'Mageants_ProductTabs' => 1.

Step 4: Disable the cache under System -> Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to **Stores -> Configuration -> Mageants -> Product Tabs**, the module will be displayed in the admin panel.

Step 6: On the last step go to admin panel and switch to **Catalog -> Tab Management**, it will be displaying the admin grid.

Back-end Example

Select 'Yes' To Enable ProductTabs Module

If Select 'Yes' Editing In Default Tabs

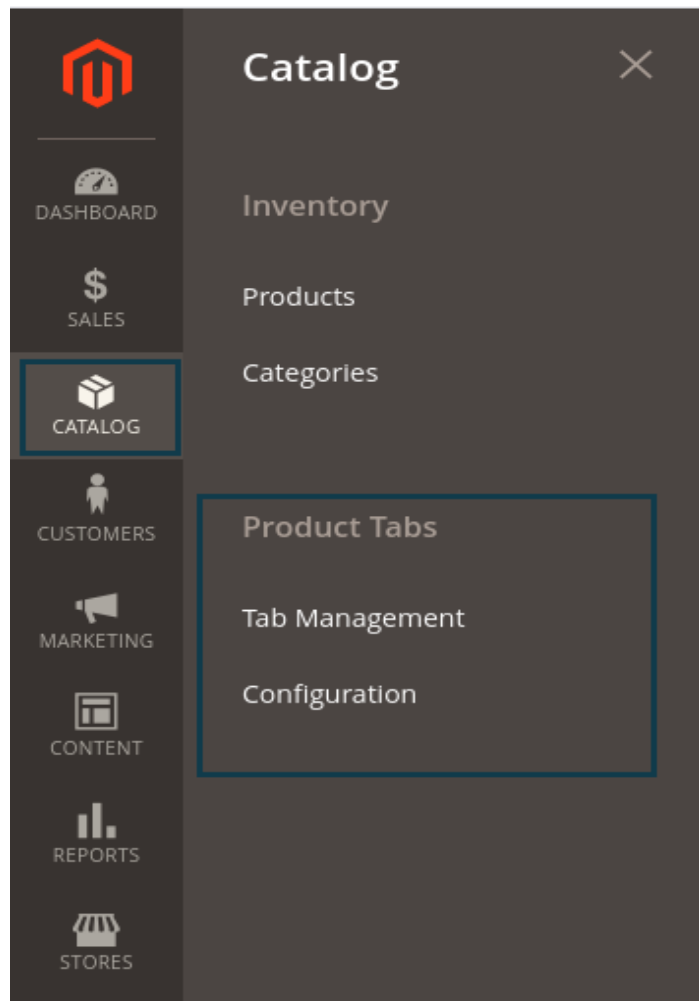

Choose ProductTabs View

ADMIN GRID ON BACK-END

- Here we show Product Tabs Admin Menu:

i. Tab Management

ii. Configuration

- From this **Tab Management Admin Grid** can enable/disable the Product Tabs and also can delete the Product Tabs.
- Admin Can Add New Product Tabs From Admin Grid.

The screenshot shows the 'Tab Management Admin Grid' interface. At the top right, there is a red button labeled 'Add New Tab' and a callout box 'Click To Add New Tab' with an arrow pointing to it. On the left, a callout box 'Mass Actions (Enable/ Disable / Delete)' points to the 'Actions' dropdown menu. Below the dropdown, it says '7 records found'. In the center, a callout box 'Tab Management Admin Grid' points to the table. At the bottom right, a callout box 'Actions (Edit/ Duplicated)' points to the 'Action' column of the table. The table has the following data:

ID	Tab Name	Tab Title	Tab Order	Status	Tab Type	Module Name	Action
1	product.attributes	More Information	0	Enable	Default	Magento_Catalog	Select
2	product.info.description	Details	0	Enable	Default	Magento_Catalog	Select
3	reviews.tab	Reviews	0	Enable	Default	Magento_Review	Select
4	Images	Image Gallery	0	Enable	Custom	Mageants_ProductTabs	Select
5	FAQ	FAQs	0	Enable	Custom	Mageants_ProductTabs	Select
6	Find Your Size	Find Your Size	0	Enable	Custom	Mageants_ProductTabs	Select
7	Video	Video Demo	0	Enable	Custom	Mageants_ProductTabs	Select

➔ Admin can add the new Product Tabs or edit from back end as follow.
