Back-end Example:

After Installation of Extension login to Magento admin panel to set configuration of the extension.

Voice Search Configuration:

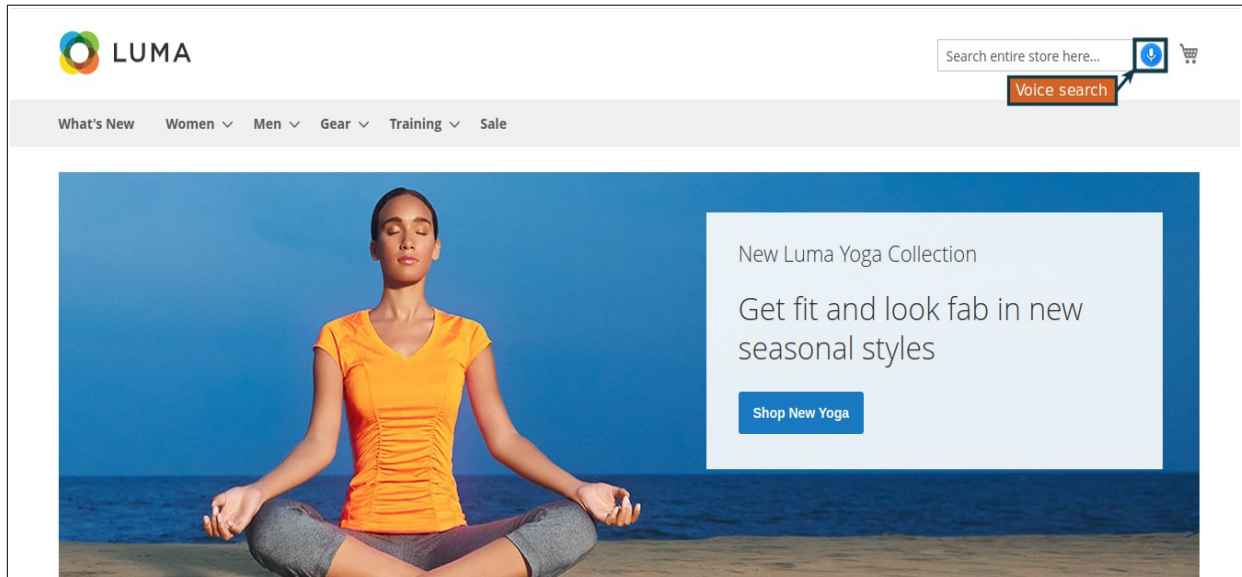

Login to Magento Admin → Store → Configuration → Mageants → Voice Search → Enable → Choose Yes/No to Show or hide module.

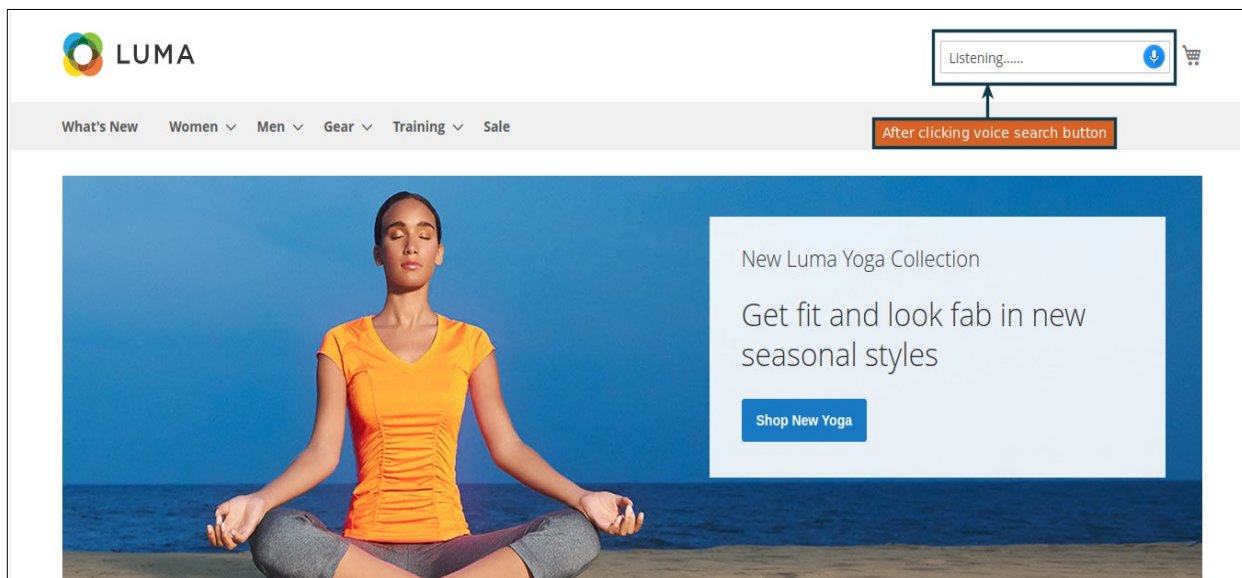

Enable : Choose Yes will enable the voice search module.

Front-end Example

→ **Magento Home page:**

→ **Click on voice search button and say something for search.**

→ Voice search result:

The screenshot shows a Magento storefront for 'LUMA'. At the top right, a search bar contains the text 'Radiant' and has a blue microphone icon. Below the search bar is a navigation menu with items: 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. The main content area shows 'Search results for: 'Radiant'' with a blue box around the text and an orange arrow pointing to it from a label 'Voice-search result'. Below this, there are sections for 'Compare Products' (with a '1 Item' indicator and a message 'You have no items to compare.'), 'My Wish List' (with a message 'You have no items in your wish list.'), and a product image of a woman in a pink top.
