Preface:

- Wholesale Fast Order is a perfect extension for the wholesale customer who wants to add multiple products to cart at once.
- The extension allows visitors to search products by both SKUs or names with Ajax search and auto-suggest.
- The extension works on a page without reloading. You can use the appropriate URL to place Quick Buy anywhere on the website.
- Quickly order with CSV import function only for simple products without custom options.
- Quick order form for specific customer groups.
- Support simple products with custom options and configurable products.
- Reduced time for searching and selecting wanted products.
- Fast Order extension helps customers to place order quickly, which is very useful for customers.
- User Friendly and flexible configuration.
- When You Download sample CSV link, sample file will be download in your system.
- You can also add product using upload button when you upload csv file display product details but it can be same as sample csv otherwise upload any type of file you get will display error message.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Wholesale fast order. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management Edit
app/etc/config.php file and add one line code: 'Mageants_Fast order' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the
admin panel and switch to Stores → Configuration → Mageants →
Wholesale fast order, the module will be displayed in the admin panel.

Backend Example

After Installation of Extension login to magento admin panel to set configuration of the extension.
