Preface:

- Wish list Notification is perfect extension for the store owners who wants to wish list notification whenever customer can add new item in his wish list.
- Whenever a customer puts a product on his wish list you can get email with all products which are being put on the customer's wish lists.
- User Friendly and flexible configuration
- Admin can easily add his email subject & email address from backend.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory.
If code directory does not exists then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Wishlist notification, The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code:
'Mageants_Wishlistnotification' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Wishlist notification, the module will be displayed in the admin panel.

Admin Configuration

After Installation of Extension log in to magento admin panel for set configuration of the extension.

Extension menu and sub menu:

The screenshot displays the Magento Admin Configuration interface for the 'Wishlist Notification' extension. The page is titled 'Configuration' and shows the 'STORES' sidebar on the left. The main content area is divided into sections for 'MAGEANTS' and 'CUSTOMERS'. Under 'MAGEANTS', the 'Wishlist Notification' section is expanded, showing the following configuration options:

- Email Subject** (website): Customer Wishlist. Enter the email subject for Wishlist notification emails.
- Email Address** (website): [Redacted]. Enter the email address to which the Wishlist notification email needs to be sent.
- Wishlist Notification Email Template** (website): Wishlist Notification Email form (Default).

Three callout boxes with arrows point to these fields:

- 'Add email subject here' points to the 'Email Subject' field.
- 'Add email address here' points to the 'Email Address' field.
- 'select email template' points to the 'Wishlist Notification Email Template' dropdown menu.
